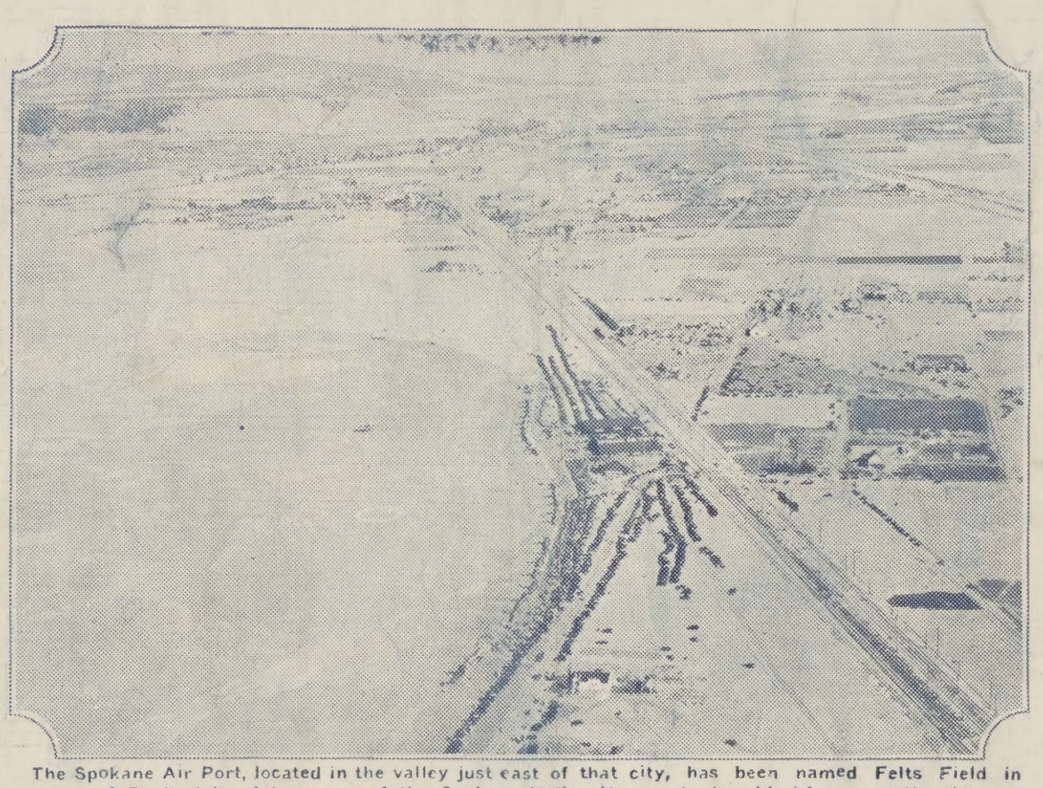
SOUVENIR



The Spokane Air Port, located in the valley just east of that city, has been named Felts Field in memory of Buell Felts, late owner of the Spokane Valley News, who lost his life as a national guard flier at this field. On September 21-25 this aviation center of the Inland Empire will be the scene of the seventh National Air Races, held for the first time on the Pacific Coast. The National Air Derby races from New York and the Pacific Air Derby from San Francisco will terminate at Felts Field on September 21, following which the National Air Races and exhibitions will be held, in which 300 planes are expected to take part. The National Air Derby is expected to be an important step toward the establishment of a northern route for the air mail service.
